CONTENTS OF VOLUME THIRTEEN

★

NUMBER 1. *Physiology and Pathology of the Kidney*

Scientific Editor: CLIFFORD WILSON

		PAGE
INTRODUCTION	*Robert Platt*	1
New thoughts on renal function in the early days of life	*R. A. McCance & E. M. Widdowson*	3
Tubular secretion of potassium	*D. A. K. Black & E. W. Emery*	7
The volume control of body-fluids	*Oliver Wrong*	10
Potassium deficiency and the kidney	*M. D. Milne, R. C. Muehrcke & B. E. Heard*	15
Histochemical changes in the potassium-depleted kidney	*C. R. Macpherson & A. G. E. Pearse*	19
Microdissection of the nephron in disease	*E. M. Darmady & Fay Stranack*	21
Renal aminoaciduria	*H. Harris*	26
Role of the kidney in experimental hypertension	*M. A. Floyer*	29
Disturbances in water and electrolyte metabolism in experimental hypertension	*J. M. Ledingham*	33
The treatment of hypertension in primary renal disease	*Clifford Wilson & D. Gordon Abrahams*	39
The nephrotic syndrome	*John R. Squire, J. D. Blainey & J. Hardwicke*	43
The pathogenesis of urinary calculus formation	*Mary G. McGeown & Graham M. Bull*	53
Azotaemic renal osteodystrophy	*S. W. Stanbury*	57
Renal angiography	*R. S. Murray & G. C. Tresidder*	61
Venography in relation to the kidney	*R. E. Steiner*	64
Effects of old age and over-nutrition on the kidney	*G. C. Kennedy*	67
Notes on Contributors		71
Book Reviews		73

★

NUMBER 2. *The Liver: Some Physiological and Clinical Aspects*

Scientific Editor: N. F. MACLAGAN

INTRODUCTION	*Sir Harold Himsworth*	75
Chemistry of the liver cell	*J. N. Davidson*	77
The blood flow of the liver	*W. H. Horner Andrews*	82
Regeneration of liver	*R. D. Harkness*	87
Bile pigments	*C. H. Gray*	94
Recent advances in radiology of the biliary and portal systems	*D. Sutton*	99
Experimental studies on toxic liver injury	*H. B. Stoner & P. N. Magee*	102
Nutritional liver damage in man	*J. C. Waterlow & G. Bras*	107
Protein metabolism and the liver	*N. H. Martin & A. Neuberger*	113
The liver and steroid hormone metabolism	*C. B. Cameron*	119
The clinical pattern and prognosis of infective hepatitis	*E. R. Cullinan*	126
Haemochromatosis	*J. C. Houston*	129
Hepatolenticular degeneration (Wilson's disease)	*J. M. Walshe*	132
Liver failure	*Sheila Sherlock*	136
Treatment in diffuse liver disease	*J. F. Stokes & M. L. Rosenheim*	142
Historical notes on some epidemic diseases associated with jaundice	*Sir William Mac Arthur*	146
Notes on Contributors		150
Book Reviews		151

NUMBER 3. *Autonomic Nervous System*

Scientific Editor: W. S. FELDBERG

		PAGE
INTRODUCTION	*Sir Henry Dale*	153
Acetylcholine metabolism at nerve-endings	*R. I. Birks & F. C. MacIntosh*	157
Formation of catechol amines in the animal body	*H. Blaschko*	162
Sympathomimetic amines in the central nervous system: normal distribution and changes produced by drugs	*Marthe Vogt*	166
The action of humoral transmitters on smooth muscle	*Edith Bülbring*	172
Mode of action of autonomic transmitters on the heart	*O. F. Hutter*	176
Acetylcholine and cardiac fibrillation	*J. H. Burn*	181
Pharmacological properties of sensory receptors and their relation to those of the autonomic nervous system	*J. A. B. Gray & J. Diamond*	185
Functional vasodilatation in the submandibular salivary gland	*S. M. Hilton & G. P. Lewis*	189
Sweating in relation to sympathetic innervation	*C. Lovatt Evans*	197
Innervation of abdominal viscera	*R. C. Garry*	202
Intermediate sympathetic ganglia	*J. D. Boyd*	207
Collateral sprouting in response to injury of the autonomic nervous system, and its consequences	*J. G. Murray & J. W. Thompson*	213
Transmission in autonomic ganglia	*W. L. M. Perry*	220
Notes on Contributors		227
Book Reviews		228

INDEX TO VOLUME THIRTEEN

Names printed in large capitals are those of authors who have contributed articles to the symposia. Titles of books are printed in italics. Titles of symposia are printed in bold type.

A

Abdomen, viscera, innervation of, 202
ABRAHAMS, D. G., *see* WILSON, C., 39
Acetylcholine, action on heart muscle, 181
—— effect on sensory receptors, 186
—— excitation of sensory receptors by, 185
—— metabolism at nerve-endings, 157
—— storage, 158
—— synthesis, 157
Adrenal cortex, extracellular fluid maintenance, 11
Adrenaline, action on heart muscle, 183
—— formation, 162
Amines, catechol, formation, 162
—— sympathomimetic, normal distribution in central nervous system, 166
Aminoaciduria, renal, 26
Anatomy: *Textbook of human anatomy*, 152
ANDREWS, W. H. H.: The blood flow of the liver, 82
Angiography, renal, 61
Aortography, translumbar, 61
Apocrine glands, humoral control, 199
—— —— response to chemical agents, 198
APPLETON, A. B., *see* BOYD, J. D., 152
Ascites and liver disease, 139
Autonomic ganglia, transmission in, 220
—— nervous system, collateral sprouting in response to injury, 213
—— —— —— **symposium on, 153–226**
—— transmitters, functions of, 229
—— —— mode of action on heart, 176

B

BELL, G. H., DAVIDSON, J. N. & SCARBOROUGH, H.: *Textbook of physiology and biochemistry*, 152
Bile pigments, 94
—— —— formation, 96
Biliary obstruction, treatment, 143
—— system, radiology, recent advances, 99
Bilirubin, diazo reaction, 94
Biochemistry: *Textbook of physiology and biochemistry*, 152
Biographical notes on contributors, 71, 150, 227
BIRKS, R. I. & MACINTOSH, F. C.: Acetylcholine metabolism at nerve-endings, 157
BLACK, D. A. K. & EMERY, E. W.: Tubular secretion of potassium, 7
Blackwell scientific publications: complete catalogue, 1957; medicine and science, 74
BLAINEY, J. D., *see* SQUIRE, J. R., 43
BLASCHKO, H.: Formation of catechol amines in the animal body, 162
Body-fluids, volume control of, 10
Body fluids in surgery, 73
Bone changes due to renal disease, 57
Book reviews, 73, 151, 228
BOYD, J. D.: Intermediate sympathetic ganglia, 207
—— CLARK, W. E. LE G., HAMILTON, W. J., YOFFEY, J. M., ZUCKERMAN, S. & APPLETON, A. B.: *Textbook of human anatomy*, 152
Bradykinin, 192
BRAS, G., *see* WATERLOW, J. C., 107
BRITISH MEDICAL JOURNAL: *Refresher course for general practitioners*, third collection, 74
BÜLBRING, E.: Action of humoral transmitters on smooth muscle, 172
BULL, G. M., *see* MCGEOWN, M. G., 53
BURN, J. H.: Acetylcholine and cardiac fibrillation, 181
—— *Functions of autonomic transmitters*, 229

C

Calculus, urinary, pathogenesis, 53
CAMERON, C. B.: The liver and steroid hormone metabolism, 119
Catechol amines, formation, 162
Cholangiography, 99
Cholecystography, 99
Choline acetylase activity, 181
CLARK, W. E. LE G., *see* BOYD, J. D., 152
Contributors, biographical notes on, 71, 150, 227
CULLINAN, E. R.: The clinical pattern and prognosis of infective hepatitis, 126
Curarine, effect on sensory receptors, 186
Cystinosis, tubular changes in, 23
Cystinuria, 26

D

DALE, Sir H.: Autonomic nervous system: introduction to symposium, 153
DARMADY, E. M. & STRANACK, F.: Microdissection of the nephron in disease, 21
DAVIDSON, J. N.: Chemistry of the liver cell, 77
—— *see* BELL, G. H., 152
Defaecation, nervous control, 203
DIAMOND, J., *see* GRAY, J. A. B., 185

E

Eccrine glands, response to chemical agents, 197
Electrolyte metabolism, disturbances in experimental hypertension, 33
EMERY, E. W., *see* BLACK, D. A. K., 7
Eserine, effect on sensory receptors, 187
EVANS, C. L.: Sweating in relation to sympathetic innervation, 197

F

Fetor hepaticus, 139
Fibrillation and acetylcholine, 181
FLEMING, R., *see* SAUNDERS, L., 230
FLOYER, M. A.: Role of the kidney in experimental hypertension, 29

G

Galactosaemia, 27
Gall-bladder, radiology, recent advances, 99
Ganglia, autonomic, transmission in, 220
—— sympathetic, intermediate, 207
GARRY, R. C.: Innervation of abdominal viscera, 202
GRAY, C. H.: The bile pigments, 94
GRAY, J. A. B. & DIAMOND, J.: Pharmacological properties of sensory receptors and their relation to those of the autonomic nervous system, 185

H

Haemochromatosis, 129
HAMILTON, W. J., *see* BOYD, J. D., 152
HARDWICKE, J., *see* SQUIRE, J. R., 43
HARKNESS, R. D : Regeneration of liver, 87
HARRIS, H.: Renal aminoaciduria, 26
Hartnup disease, 27
HEARD, B. E., *see* MILNE, M. D., 15
Heart beat, initiation, 177
—— muscle, action of acetylcholine on, 181
—— —— electrical properties, 176
—— —— mode of action of autonomic transmitters on, 176
HELLER, H. (editor): *The neurohypophysis*, 229
Hepatitis, acute, treatment, 142
—— infective, clinical pattern and prognosis, 126
—— —— historical note, 146
—— subacute, treatment, 143
Hepatolenticular degeneration, 132
Hexamethonium, effect on sensory receptors, 186

HILTON, S. M. & LEWIS, G. P.: Functional vasodilatation in the submandibular salivary gland, 189
HIMSWORTH, Sir H.: Liver; physiological and clinical aspects: introduction to symposium, 75
HOUSTON, J. C.: Haemochromatosis, 129
Humoral transmitters, action on smooth muscle, 172
HUTTER, O. F.: Mode of action of autonomic transmitters on the heart, 176
Hypertension, experimental, role of kidney in, 29
—— —— water and electrolyte metabolism, disturbances in, 33
—— in primary renal disease, treatment of, 39

I

Infant, new-born, kidney function in, 3
Intestine, smooth muscle, action of humoral transmitters on, 172
Isotopes: *Radioactive materials and stable isotopes: Catalogue No. 4*, 230

J

Jaundice, epidemic diseases associated with; historical notes, 146

K

KENNEDY, G. C.: Effects of old age and over-nutrition on the kidney, 67
Kernicterus, pathogenesis, 96
Kidney, angiography, 61
—— calculus, pathogenesis, 53
—— disease, histological changes in, 21
—— —— osteodystrophy due to, 57
—— —— treatment of hypertension in, 39
—— function in new-born, 3
—— hyperplasia, 68
—— **physiology and pathology, symposium on, 1–70**
—— potassium deficiency effects, 15, 25
—— —— —— histochemical changes in, 19
—— —— secretion, 7
—— radiography, 61, 64
—— role in experimental hypertension, 29
—— senile changes, 67
—— tubular necrosis, histological appearance, 21
—— venography, 64

L

LEDINGHAM, J. M.: Disturbances in water and electrolyte metabolism in experimental hypertension, 33
Leptospirosis icterohaemorrhagica, historical note, 146
LEWIS, G. P., *see* HILTON, S. M., 189
Lignac-Fanconi disease, tubular changes in, 23
Liver, and protein metabolism, 113
—— and steroid hormone metabolism, 119
—— blood flow, 82
—— —— vessels, 82
—— carcinoma, nutritional causes, 111
—— cell, chemistry of, 77
—— cirrhosis, relation to malnutrition, 109
—— —— treatment, 143
—— composition during regeneration, 89
—— disease, diet in, 145
—— —— diffuse, treatment in, 142
—— —— relation to protein intake, 115
—— —— *Diseases of the liver*, 151
—— —— *Diseases of the liver and biliary system*, 151
—— effect of dietary changes on, 79
—— failure, 136
—— fatty, 108
—— necrosis, toxic, 103
—— nutritional damage in man, 107
—— **physiological and clinical aspects, symposium on, 75–149**
—— regeneration, 87
—— toxic injury, experimental, 102
—— Wilson's disease, 132

M

MAC ARTHUR, Sir W.: Historical notes on some epidemic diseases associated with jaundice, 146
McCANCE, R. A. & WIDDOWSON, E. M.: New thoughts on renal function in the early days of life, 3
McGEOWN, M. G. & BULL, G. M.: The pathogenesis of urinary calculus formation, 53
MACINTOSH, F. C., *see* BIRKS, R. I., 157
MACPHERSON, C. R. & PEARSE, A. G. E.: Histochemical changes in the potassium-depleted kidney, 19
MAGEE, P. N., *see* STONER, H. B., 102
MARTIN, N. H. & NEUBERGER, A.: Protein metabolism and the liver, 113
Mathematics and statistics for use in pharmacy, biology and chemistry, 230
Micturition, nervous control, 203
MILNE, M. D., MUEHRCKE, R. C. & HEARD, B. E.: Potassium deficiency and the kidney, 15
MUEHRCKE, R. C., *see* MILNE, M. D., 15
MURRAY, J. G. & THOMPSON, J. W.: Collateral sprouting in response to injury of the autonomic nervous system, and its consequences, 213
MURRAY, R. S. & TRESIDDER, G. C.: Renal angiography, 61
Muscle, smooth, action of humoral transmitters on, 172

N

Nephritis, interstitial, histological appearances, 25
Nephrocalcinosis, histological appearances, 25
Nephron, histological changes in disease, 21
Nephrosis, familial, congenital, histological appearances, 24
Nephrotic syndrome, 43
Nerve-endings, acetylcholine metabolism at, 157
Nervous system, autonomic, collateral sprouting in response to injury, 213
—— —— —— **symposium on, 153–226**
NEUBERGER, A., *see* MARTIN, N. H., 113
Neurohypophysis, 229
Neurology, modern trends in (second series), 228
New-born, kidney function in, 3
Nicotine, effect on sensory receptors, 186
Noradrenaline, distribution in brain, 166
—— formation, 162

O

Old age, kidney changes in, 67
Osteitis fibrosa, renal, 59
Osteodystrophy, renal, azotaemic, 57
Osteomalacia, renal, 58
Osteoporosis and renal osteodystrophy, 60
Osteosclerosis due to calciferol therapy, 59

P

PEARSE, A. G. E., *see* MACPHERSON, C. R., 19
PERRY, W. L. M.: Transmission in autonomic ganglia, 220
Physiology: *Textbook of physiology and biochemistry*, 152
PLATT, R.: Physiology and pathology of the kidney: introduction to symposium, 1
Portal venography, recent advances, 100
Post-hepatitis syndrome, treatment, 143
Potassium and cardiac fibrillation, 183
—— deficiency, renal effects, 15, 25
—— intake in relation to experimental hypertension, 33
—— tubular secretion, 7
Protein metabolism and the liver, 113
Pyelonephritis, infantile, histological appearances, 25

Q

Quinidine, effect on atrial fibrillation, 183

R

Radioactive materials and stable isotopes: Catalogue No. 4, 230
Receptors, sensory, effects of blocking agents and anticholinesterases on, 186
—— —— pharmacological properties and their relation to those of autonomic nervous system, 185
Refresher course for general practitioners, third collection, 74
Relapsing fever, louse-borne, historical note, 147
Rickets, renal, 58
ROCHE, A. E.: *Practical urology: case-comments and late results*, 73
ROSENHEIM, M. L., *see* STOKES, J. F., 142

S

Salivary gland, submandibular, functional vasodilatation in, 189
SAUNDERS, L. & FLEMING, R.: *Mathematics and statistics for use in pharmacy, biology and chemistry*, 230
SCARBOROUGH, H., *see* BELL, G. H., 152
SCHIFF, L. (editor): *Diseases of the liver*, 151
Scientific and learned societies of Great Britain, 58th ed., 74
